

UTAH STATE ARCHIVES AND RECORDS SERVICE

Series 186

## GOVERNOR (1933-1941 : BLOOD) [446]

### CORRESPONDENCE, 1933-1940.

27 cu.ft.

Storage is off-site; contact the Utah State Archives.

**DESCRIPTION:** This series contains correspondence to and from Governor Blood. It was the Governor's central method of communicating with the Utah citizenry and other principal officials. The correspondence pertains to his duties in office. Much of this series is from constituents asking for advice and assistance in managing the hardships of the Depression. It also holds correspondence from businesses, governmental officials, and generally from those involved in the workings of government, excluding state agencies(series 14207).

**ARRANGEMENT:** The arrangement is chronologically by year thereunder alphabetically. Folders may be further broken down chronologically or topically. For example, the miscellaneous P's first, chronologically by month; then specific P names alphabetically, thereunder chronologically by month.

**RESEARCH NOTE:** Because of the importance of original order in maintaining context, the original arrangement of the records has been preserved. Some correspondence from the same creator is occasionally filed differently each year, e.g., U. S. Department of Agriculture (filed under U's) or Agriculture, U. S. Department of Agriculture(filed in A's).

**RELATED RECORDS:** Series 191, RELIEF PROGRAMS, contains correspondence from the Utah citizenry asking for help from the Governor and also letters from state and federal officials relating to relief from the Depression. Series 189, DEER AND SALT LAKE AQUEDUCT PROJECT FILES, contains information on the public works project, Deer Creek Reservoir. The general correspondence does as well. Series 187, EMPLOYMENT APPLICATIONS, contains letters from Utah citizens seeking employment and help from the

governor. Series 14207, STATE AGENCY CORRESPONDENCE, contain correspondence pertaining to the functions of state agencies. Series 22918, contains information on the Colorado River and Utah's involved in procuring its share of the water.

**PROCESSING NOTE:** The scheduling of this series is by the Utah State Agency General Retention Schedule (1997, sched. 1, item 9). These records will be microfilmed because of their intrinsic value. Henry H. Blood was governor during a decidedly trying time in Utah and U.S. history. He entered the office during the infancy of the Depression and completed his second term while World War II waged on and America was contemplating their potential, direct involvement. Microfilming will protect the original papers, which will also be preserved. This series was processed by Wendy Checketts, March 2000.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

**GAPS IN THE SERIES:** There is no correspondence filed under T for July-December of 1940.
